☐ ACCEPTED BY RECEIVING T.C.

NOT ACCEPTED

☒ Forward to receiving TC Post Classifier

☐ Non-classification issue/other, return to Originating TC/AU

REASON: Claims 46, 47, 54 & 55 are not the most Comprehensive claims. There is no accumulator claimed. I assume was referring to 'accumulated air content' which is the measuring step/device (Class 73). An Infusion pump and inlet & outlet valves are generically claimed but they are also set forth in the method claims or claims 24-26. Since therefore claims 27-32 are the most Comprehensive, as noted above they are class 600. If not this case might go to class 73 measuring & testing.
